“ *Eliga and I went to CVS high school together and ended up working at the U of C bookstore together. We stayed on campus over 25 years in different departments. We remained good friends the entire time. He will be truly missed.*

“ *I met Eliga, (Moe) in 1979 when I was just 20 and started working at the University Of Chicago Office Machine Department. Our friendship was immediate. He was always kind, fun loving and supportive. As time passed we grew to be more of a family than just friends. For more than 17 years we worked together giving each other a hard time in a playful way along with the rest of the crew back then before I moved to California. I tried to stay in touch and I'm glad I was able to visit him a few years ago when I went back to Chicago. I'm the guy in the middle of the photo that Ken posted. We had a great time, it was like I never left. I miss those days, and I will miss my friend, ( brother ) Moe.*

*My condolences to his family. You are in my thoughts and prayers.*

“ Eliga was a young 20 year old fresh out of the Army in Germany when I as service manager and my boss Ralph Shimoyama hired him in 1972. His work ethic and his pleasant personality made him a great fit for what was then known as the Typewriter Department in the bookstore. When I became manager I made him the Service Manager because of his great strength of dealing with people. We became great friends and that friendship lasted for 44 years.

Whenever I talked to him or emailed these last couple of years he never spoke of his illness but deferred the conversation to happier times.

It's good to see the photo of 3 longtime friends.

You will be missed Moe.

“ I had the honor and good fortune to work with Eliga last year at the University of Chicago. He was kind and helpful and a true professional. His positive attitude was a life lesson for me. May he rest in peace. Alice

“ *It makes me sad to know I wouldn't see his face and hear his voice when I stop in the area he used to work, but I know he has no more suffering. My condolence to the family. He was loved and liked and a joy to talk to.*

“ I have known Moe for over 30 years, I was only 21 years old when I first met him. Moe was my Service Manager at the University of Chicago Office Machines Department. He was more than my supervisor back then, we became friends immediately. Then over time he was family to me. Years went by and before his 25th anniversary here he decided to resign. We still kept in touch and he would say to me I would love to come back to work with you guys. We had an opening here so I contacted him and he excepted the job as our Administrative Assistant. I was so happy to have him back here working with us, it was like old times. Moe and I were the last of the original Office Machines guys, I will be lost without him here. He fought a courageous battle against his cancer and always showed up to work. Here is a picture of me, Moe and a coworker who also resigned and moved to California. He had stopped in one day so we had to get a pic of the old crew.

*Moe, I love you my dear friend and will miss you. I will cherish the memories and time we spent together. Until we meet again, fly high with all of your model war planes.*
